PROFILE OF INNOVATION

2020 PRODUCT CATALOG
FALL ARREST
FALL RESTRAINT
We recognize...

- **People** are the most valuable assets to a company.
- **Profit** is the reason why businesses exist.
- The **planet** is protected by using reusable and recyclable guardrails.

**Guardrails with 5000 lb tie-off point**

- **200 lb guardrail ultimate load**
- **Installs in less than a minute with no tools required**
- **Dedicated 5000 lb D-ring tie-off**
- **5:1 safety factor**
- **Permanent integral threaded anchor rod allows for repeated reuse**
- **Embedded threaded anchors to match any slab depth**

Design references:
- AISC Manual of Steel Construction, ASD
- 29 CFR 1926.502 OSHA Fall Protection Systems

**New!**

By using an embedded anchor, the SAPS system protects rebar and post-tension cable from damage that might occur from drilling into the slab.
NEW PRODUCT

NEW! DUALIE ANCHOR

A dual-port anchoring system that provides overhead tie-off points as well as anchorage for guardrail posts.

Engineered for horizontal or vertical use. This anchor embeds directly into a concrete wall and can be used with two swivel D-rings at the same time.
